June 4, 2007

Ministry of Natural Resources

Minister Hon. David Ramsay

Dear Sir:

This letter shall inform you of our Company's intended course of action, after in excess of 4 years of illegal enforcement of unlawfully imposed "23 Specific Pre Operating Conditions" upon licence 103717 which have been confirmed by court decisions January 28, 2005, June 15, 2006 and March 12, 2007 **not** to form part of the licence.

M.N.R. has succeeded in contempt of these court decisions to manipulate the court to grant an injunction order November 20, 2006, when it misrepresented to the O.M.B. and the Court that pre operating conditions were conditions of licence which had been previously declared in the January 28, 2005 and June 15, 2006 court decisions to in fact **not** form part of the licence.

This Ministry has now in contempt of court manipulated the court to enforce a fraud.

I am enclosing a copy of my letter of May 31, 2007 to Attorney General Michael Bryant requesting a criminal investigation of Ministry staff and lawyers in respect to this matter.

Please therefore be advised that if our lawyer Paul Osier does not by 5 p.m. this date receive a fax letter from Dennis Brown Q.C. confirming that Licence 103717 has or will be immediately reinstated and all outstanding matters resolved, in the alternative, we have made preparation for a dump truck protest at Queens Park for Thursday June 7, 2007 to expose this corrupted illegal farce and misappropriation of public funds to the taxpayers of this Province.
