Delhi, ON N4B 2W9

Dear Mr. Nichols:

**Re: Our Client: The Ontario Aggregate Resources Corporation (TOARC)
Licence: 103717
Property: Lots 10, 11 and 12, Concession 12, Township of Walpole,
Regional Municipality of Haldimand-Norfolk**

We are lawyers who act on behalf of The Ontario Aggregate Resources Corporation. It is the agent of the Trust established by the *Ontario Aggregate Resources Act*, R.S.O. 1990, c.A.8 which Trust is to enable rehabilitation of any land, of which a licence has been revoked.

Our client wrote to you on February 23rd last, concerning its intention to enter on the subject property for purposes of inspection and if required, remediation of the property.

No reply has been received to that letter.

We have reviewed your earlier letter dated February 4, 2015.

Notwithstanding the position you take in that letter, our client maintains that it has a statutory duty imposed upon it by section 6.1(5) of the *Ontario Aggregate Resources Act*, to carry out rehabilitation of the property.

Therefore, it is the intention of our client to do so in the near future; most likely during the Spring or Summer months of 2015.

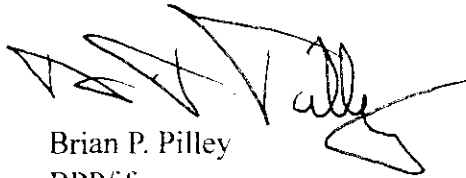

Accordingly, we are requesting your written confirmation that you will allow unfettered access to the property by our client, in order to conduct its inspection.

If we do not hear from you within 10 days hereof, we are instructed to seek a court order enjoining you, from interfering in any way with the above actions of our client.

We shall be seeking costs of any such application.

We trust it will not be necessary to do so and hope to have a positive response from you.

Yours truly,

Brian P. Pilley
